such a good game makes you feel like your in toy land. Worth it if you pc potato you can play this game. Awesome game with great humour and riddles.. \udb40\udc21. Game made with minimal effort and lacks a lot of elements of good hidden objects game. Some of the elements are quite nice, but some are really annoying, like f.e.:

- element you are looking for is mostly hidden behind some other to the point it is impossible to recognize it
- screen doesn't fit your display, so you have to scroll
- when the last piece you are looking for is partly hidden behind the score window
- when you have to look for things you have no idea what they are (f.e. domra or hookah)
- when you find the thing on the list (f.e. bag), but creators meant some other thing of that kind (because there are few bags on the screen)
- when things on the list are misleading or ambiguous to the point you have no idea what you are looking for

It would be a good hidden objects game if it wasn't so bad and so low-budget. Needs more kinds of miniguns plz . Beautiful and relaxing game that has moments of intrigue while exploring differing individuals.. Nobody plays this game any more, servers are empty, and game is only for multyplayer, its not worth 9.99 Euros, so dont be a foul.. I enjoyed the game a lot- it felt like it had the same magic that a lot of the Artifex Mundi games (the ones they've only been publishing and not developing) have been lacking of late. And I appreciated the inclusion of some collectibles. If it's on sale, it's certainly worth picking up. But be forewarned, the game is very, very short... shouldn't take you more than 2-3 hours to complete everything, and I feel like that's about half the time of most HOG's. Also, the ending seems a bit abrupt and truncated. And finally the female voice acting is just atrocious. Two Desperadoes would certainly benefit by having it redone.

In general, I really like this developer, and I hope for the next game they'll continuing both ironing out the kinks and craft a longer, more complex game. They obviously have some talent, they just need to create a game that really capitalizes on and is worthy of those talents. This seems to be a game they did for a third party, and I'd like to see them working for themselves and creating their own line of games. Still, if you catch this on sale, it's certainly worth \$2-3 and it's a fun play while it lasts. 6.5V10

I like it! Havent been able to play multi player yet.. A fun game for the kids during the holiday season. Worth the sale price.. This was the tender used by BR52 by default, so it is practically a must have.

This version is fully compatible with the version available though the 3rd party web site... and it is cheaper (and even more when on sale).

If you are into classic european steamers, get it now, as most BR52 freeware reskins require this tender anyway.

. very good game. interesting.. I have this and the Inverness addon which i bought together. However both add-ons rendered FSX un-useable. Im unable to load any flights. Stay clear until a fix is released.. i dont like it. Where do I start ....well The Dope Game is basically an old school trading game that is very bare bones (not a bad thing) it kinda reminds me of a simple form of Privateer; You move around the city slinging illicit drugs trying to make a profit while avoiding cops,unfriendly gangs, and anyone else you manage to screw over or\u2665\u2665\u2665\u2665\u2665off. Along the way you can buy all sorts of weaponry and build up a crew to protect you and your stash. this is a minimalist game meaning the graphics look hand drawn and are all still shots, the dialog is all in written form (so if your a simpleton that doesnt like to read this isnt for you) it is as retro as you can get . it certainly brings me back to my days on my 286 or even my comodore64c (yeah im that old ) but thats the charm of the game. its a single player game but there is an ingame chart that compares you to the rest of the rif raf that also play. the music is cool and well done and you get all of it with the purchase of the DLC which is worth the \$ .99 . So overall its an addictive ( seriously no pun intended) easy to play , time killer ,full of dark humor , that is well worth the low price kinda game. I recomend it and would easily buy new DLC if they ever expand on it.

....PS... this is NOT for anyone under 18 and is also extremely NSFW (there is an option to make the drug names change to something else)
